Education

Geeta University ,Delhi NCR

Bachelor of Technology

Aug 2024 – May 2028

Panipat, Delhi NCR

DPSK,ASSAM

AISSCE

April 2022 – May 2024

76, 380/5

Relevant Coursework

- Data Structures and Algorithms
- Software Engineering
- Database Management Systems (DBMS)
- Artificial Intelligence
- Machine Learning
- FullStack Development
- OOPS
- Operating Systems
- Git Version Control

Experience

Code Alpha

Feb 2025 – March 2025

FrontEnd Developer intern

Remote

- Developed responsive web applications as a Front-End Developer Intern at Code Alpha, including “Petra”, a pet adoption platform to connect users with shelters efficiently.
- Collaborated on integrating frontend components with backend services, ensuring seamless data flow and smooth user experience across the application.

GTH Training

June 2025 – July 2025

Fullstack Development

Panipat, Haryana

- Completed full-stack development training at GTH, building scalable web applications using React.js, Node.js, and Express.js.
- Developed dynamic front-end interfaces with React.js and implemented RESTful APIs to handle application logic and data flow.
- Worked with databases to store and manage user data, ensuring efficient integration
- Collaborated using Git for version control and utilized VS Code for development, debugging, and performance optimization.

Projects

Rakt Setu ,Blood Bank traking system | React.js,Express,Git,Mongodb

September 2025

- Developed “RaktSetu”, a full-stack platform using React.js, Node.js, and Express.js to connect blood donors.
- Implemented search and filter features to find donors by blood group and location quickly during emergencies.
- Built backend services with MongoDB to manage donor data, requests, and real-time updates securely.
- Optimized performance and ensured responsive design for seamless access across different devices.

Petra ,Pet adoption site | React.js, Express,Mongodb,Git

November 2025

- Developed “Petra”, a web platform to connect users with pet shelters and streamline the adoption process.
- Built responsive user interfaces using HTML, CSS, and JavaScript for browsing and filtering pets.
- Integrated backend services to manage pet listings, user data, and adoption requests efficiently.

Virtual Campus Tour | Reactjs , 3d Vista, Git

April 2026

- Developed a Virtual Campus Tour platform to provide an interactive view of campus facilities and locations.
- Built responsive UI using HTML, CSS, and JavaScript to enable smooth navigation and engaging user experience.
- Integrated multimedia elements and optimized performance for seamless access across devices and browsers.

Technical Skills

Languages: React.js , Node.js ,Python, C++, C, HTML/CSS, JavaScript, Mongodb , Express,Tailwindcss

Developer Tools: VS Code, Google Cloud Platform,Antigravity,Anaconda,jupyter Notebook

Technologies/Frameworks: React.Js,Express.js, MongoDB, REST APIs, Bootstrap, Git,WordPress

Leadership / Extracurricular

Achievements

2024 – 2026

Hackathons & Technical Milestones

- Secured Top 15 position in HackForge 1.0 and HackForge 2.0, demonstrating strong problem-solving and innovative solution development.
- Achieved 3rd Position in Smart India Hackathon 2025 (Internal Round) for building a scalable and impactful project solution.
- Won 1st Position in Pitch Delivery on Engineers’ Day, showcasing strong presentation and communication skills.
